

Accessible E-books Selection Criteria

Navigation

- ☐ Intuitive organization, predictable use of icons and placement
- ☐ Ability to engage assistive features at any point within the text
- ☐ Well-designed table of contents / hyperlinked map of resource

Voice

- ☐ Possibility of adjusting speed
- ☐ *Synthetic voice*: availability of different “human-sounding” voices
- ☐ *Real voice*: authenticity (audio voice matches narrator of text), expression, fluency
- ☐ Ability to remove background sounds (sound effects, music, etc.)

Text & Display

- ☐ Ability to change font: type (e.g. OpenDyslexic), size, colour, spacing
- ☐ Aesthetically pleasing layout; options to change contrast

Personalization, Flexibility & Support for Instruction

- ☐ Option to create Bookmarks
- ☐ Availability of adding and organizing Annotations
- ☐ Interaction with external products; ability to export (e.g. *Google Drive*)
- ☐ Built-in classroom management / teacher monitoring module
- ☐ Unrestricted, multiple-use (versus one book / one reader model)
